Recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please contact the retailer where the product was purchased.

INSTALLATION

1. Remove the power hub and connected power cord from the original packaging and unwrap them
2. Remove protective backing from the bottom of the power hub to reveal the adhesive pad (see FIG. A)
3. Place the power hub in desired location on the Konnect™ Cable Management Rail

4. Feed the power cord through the front of the rail and run the cord through the inside of the rail until reaching the desired exit point (see FIG. B)
5. Pull the end of the power cord out from either the front, back or end of the rail (with end caps removed) depending on the location of your power source (see FIG. C)
6. Connect the plug to to the desired power source

REUSING THE ADHESIVE PAD

1. To reuse the adhesive pad if moving your power hub, simply run the pad under cool water and let dry
2. After drying, the pad should be ready to use and restick in a new location
